Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

The Status of Claims :

Claims 1-5 are pending.

Claims 1-5 have been rejected.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 , the phrases " substantial amounts of un-cross-linked polyesters", "substantially all of the free hydroxy groups" and substantially free of hydroxy comprising species" are recited. These expressions are vague and indefinite because the words " substantial" and " substantially" do not describe how much each of them is meant for the free hydroxy groups in the specification; the phrase "hydroxy comprising species" is also uncertain because the term hydroxy comprising species would means

that there are other additional ingredients besides the hydroxy compound. Therefore, an appropriate correction is required.
